**Sign payroll manifest:** Motion JJ/FE to approve, passed.

Public Input:

1. Greg Bascom inquired about running sap lines through Town road culverts. It was noted Clark's Sugar House runs lines through Crane Brook box culverts. EK questioned whether anything should go through culverts which could impair flow. RD requested research on legality noting rules would apply to everyone. It was also noted that Putnam Road has not been fully restored following release of manure there and GB said he will inquire.
2. Tara Balla objected to the dust on Beryl Mountain Road. A similar complaint was filed by email by Marcie Maynard.

## **Highway Department Report:**

1. Beryl Mountain paving bids: RD noted of the three part RFP the grading and shoulder bids were fairly consistent and the paving bids were widely different. Jeff Marsden noted that there may have been confusion as to the quantity of material being requested. RD recommended contacting bidders with a clarifying request for paving. Motion JJ/FE to contact bidders and request response by June 8, passed.
2. Work update/plan: Drainage work on Cold Pond and Derry Hill are complete. Crew cleaning culverts in anticipation of grading as soon as we have some rain.
3. Dust control: There was extensive discussion in response to complaints. RD noted the effect of prolonged lack of rain particularly on roads under construction. EK noted watering roads in dry conditions provides brief relief. There was consensus to water roads where construction has taken place on days when the Transfer Station is open and to post speed signs as slowing traffic reduces dust.
